# PRACTICE WITH TYPES OF LINES

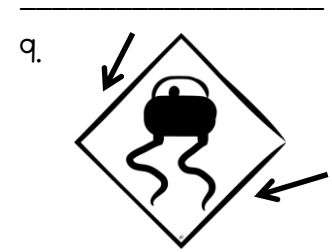

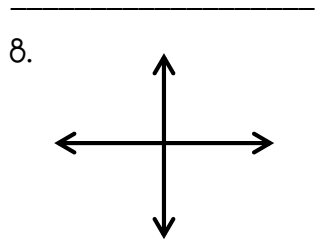

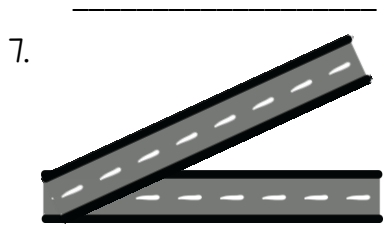

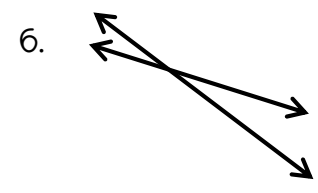

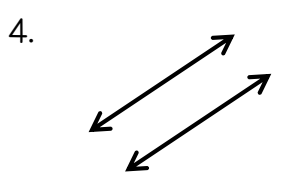

Use the words in the word bank below to identify each definition.

**WORD BANK**

perpendicular lines	parallel lines	intersecting lines
---------------------	----------------	--------------------

- \_\_\_\_\_ Lines pass through each other and create square corners or right angles.
- \_\_\_\_\_ Lines that pass through each other at the same point.
- \_\_\_\_\_ Lines that travel in the same direction and never intersect.

Examine each image below and label with the correct line name.

Practice drawing each term below.

- parallel lines
- intersecting lines
- perpendicular lines
